WEBSITE UI DESIGN STRATEGY

What We Do

- Analyze the existing website and recommend **UI/UX improvements**.
- Create modern, user-friendly page layouts with strategic **CTA placement**.
- Optimize navigation, content hierarchy, and responsiveness across all devices.
- Design a scalable interface for future growth.

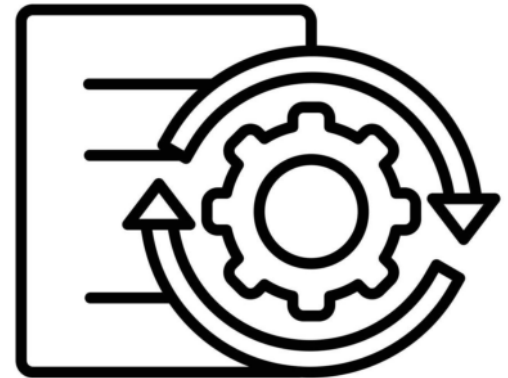

Deliverables: UI Design Recommendations, Layout Strategy, CTA Guidelines, and Responsive Design Framework.

TESTING & DEPLOYMENT LAUNCH

Testing & Deployment

- End-to-end testing of all updated pages and functionality.
- Cross-browser, responsiveness, and UI validation.
- Production deployment with domain, hosting, and SSL verification.
- Post-launch monitoring and issue resolution.

Outcome: Smooth, successful deployment with minimal user disruption.

SEO & CONTENT OPTIMIZATION

SEO & Content Optimization

- Complete basic HTML SEO optimization (title tags, meta tags, headings, alt tags, canonical tags, and internal linking).
- Content optimization with page-wise structure, hierarchy, and messaging recommendations.
- Schema markup recommendations and implementation for improved search visibility.
- Content length and SEO best practice recommendations for all key pages.

Deliverables: HTML SEO Optimization, Content Optimization and Schema Recommendations & Implementation.
